

Avery Dennison partners with Mahajan Recycle Resources, India to deliver an effective solution to recycle your Pressure Sensitive Glassine Liner Waste

India Glassine Liner Recycling Program

Brand Owner

Requirements:

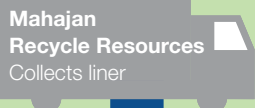

- Store Liner in Bulk Pallet Bags# in a dry location
- White Glassine Liner Only (No Yellow/Kraft/PE Coated)
- Liner must be free of labels/adhesives, plastic material, carton board & cores

Stores liner waste for collection

#Don't have Bulk Bags?

Mahajan Recycling Resources will assist in procuring bulk bags if required.

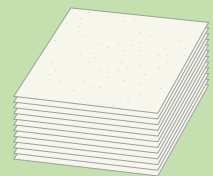

Recycling

Liner is pulped together with other waste paper

Manufacturing

Pulp is used to create tissue paper for the Footwear and Garment industry

Ensures your label waste is Recycled Sustainably and Cost Effectively

This program enables you to divert your waste from environmentally harmful landfill and incineration.

*All participants will enter into an agreement directly with Mahajan Recycle Resources which outlines the terms and conditions including associated MOQ's, costs & specific rebates payable to the participant by Mahajan Recycle Resources
