## HP Indigo

Printing labels with HP Indigo technology requires adding a topcoat to your materials. However, priming materials can be challenging, especially with materials that have special finishes or textures. Pre-priming materials is the best way to ensure uniformity of the topcoat on the substrate and preserve color accuracy.

The wide variety of materials in our HP Indigo Portfolio are pre-primed in our manufacturing facilities, ensuring uniform application, higher color accuracy and optimal performance — plus all the advantages that come with printing on HP Indigo presses and digital printers.

---

## Key Features

- More than 150 pre-primed self adhesive and Avery Dennison Rapid-Roll® materials, plus the flexibility to create your own custom construction
- More uniform topcoat application ensures more consistent color transfer, regardless of material
- Reliable performance regardless of material
- The industry's technical support services

---

## Applications

Wine and spirits/Food/Home and personal care  
Reclosures and removables/General purpose

## Conformable films

	Code	Product Name	MOQ(m <sup>2</sup> )	Lead time (days)
