

Fire Extinguisher Portfolio

New UL® 299 Recognized Solutions

Although a niche market, fire extinguisher labeling can be a key component in driving growth in the durable goods segment. Avery Dennison offers two solutions – UL recognized with inks, ribbons and adhesives – that can make the process of labeling portable dry chemical and powder fire extinguishers (Class D), and stainless steel water-based units (Class A), faster, easier and more affordable for you and your clients. Using our UL recognized label system allows you to file for a label adoption, significantly reducing the time, cost and effort of adding a product to a UL file.

Product Information

Avery Dennison ADvantage: Technical Excellence

You can count on members of the Avery Dennison ADvantage: Technical Excellence Team to help you find the products and solutions that work for you and your customers. Our technical experts are dedicated to making your next application a success. Our people are there for you, helping with scaleup, converting, application troubleshooting and employee training. We'll put the industry's most comprehensive offering of facestocks, adhesives and liners to work for you in the shortest possible time.

Are we missing a construction you need? Ask about our Select Solutions Engineered Solutions.

Contact your application consultant or sales representative to discuss how we can meet your needs. We have a team of technical solutions leaders dedicated to developing engineered solutions that fit your timeline and your bottom line.
