

Reclosure Portfolio

Now featuring a range of peel and reseal materials that have been recognized to comply with the Association of Plastic Recyclers Critical Guidance Protocol for PE Recycling and Flexible Packaging.

On-the-go consumers are demanding more convenient, easy-to-use functional packaging. The Avery Dennison reclosure portfolio provides innovative packaging solutions meet various application parameters from dry to high moisture, providing the kind of innovative, cost-effective alternatives to zippers and hard case reclose packaging brand owners are seeking. Reclose labels are designed for the easy opening and/or multiple open-close cycling of flexible packaging. They provide an economical method of repeated pack sealing – combined with branding – in one label.

- Wet applications, such as wet wipes, include water, scents, oils and chemicals within the saturating fluid that come in direct contact with the adhesive. Wet applications can also include packages containing food (such as deli meats), water or oils.
- Dry applications include such products as paper tissues or food, items like rice, pasta or coffee.
