

AD CleanFlake™ Technology

The next-generation film label for rigid packaging, with recyclability built in.

We're proud to introduce our next-generation adhesive solution for film labels: AD CleanFlake™ Technology. AD CleanFlake™ builds on our foundation of adhesives and CleanFlake products to offer uncompromised, outstanding performance along with recyclability for more kinds of rigid plastic packaging. Simplify your operations, reduce costs, fill orders faster, and meet sustainability goals—all by stocking a single solution that meets all of your film-label needs.

Designed for performance first.

AD CleanFlake™ offers outstanding performance on adhesion, clarity and conversion. It also offers excellent repositionability and the outstanding shelf appeal you expect from Avery Dennison materials, without ooze or water whitening.

A powerful way to meet sustainability goals.

We've made labeling more sustainably an easy choice by pairing performance with recyclability. AD CleanFlake™ is designed for use with HDPE and PET packages for food, beverages, home and personal care, and more. It helps brands meet sustainability targets, comply with regulations, and advance circularity by increasing the availability of recycled plastic. Recognized by EPBP, APR, and RecyClass, AD CleanFlake is part of our Sustainable ADvantage portfolio, the benchmark for innovation, sustainability and regenerative design.

Product Information

Key Features

- Outstanding performance for any film label application on PP, HDPE, PET and glass.
- Enables recycling of a wide range of PET and HDPE packaging.
- Recognized by EPBP and APR for PET recycling; Recognized by APR and RecyClass for colored HDPE recycling.
- No water Whitening or adhesive ooze; excellent print quality.
- Makes it possible to stock a single, high-performing film label for virtually any application.

Applications

- Food
- Beverage
- Home care
- Personal care
